Summary

I'm a UI/UX and Product Designer with 3 years of experience turning ideas into meaningful digital experiences. I combine user focused thinking with creative visual design to craft intuitive websites, mobile apps, dashboards and digital products. From research, user flows and wireframes to polished interfaces and interactive prototypes, I focus on making every design functional, engaging and visually consistent. Proficient in Figma and Adobe Creative Suite, with working knowledge of HTML, CSS and Bootstrap.

Experience

UI/UX & Graphic Designer at Wolt Partners Private Limited

Nov 2025 to Mar 2026

Noida, Uttar Pradesh

- Designed web and mobile product experiences including user flows, wireframes, high- fidelity screens, dashboards and responsive interfaces.
- Worked on the Obik Super App ecosystem covering taxi booking, on-demand services, food delivery, driver/vendor apps and admin-panel workflows.

UI/UX & Graphic Designer at V2 Infotech

Jul 2024 to Jul 2025

Noida, Uttar Pradesh

- Worked primarily on UI/UX projects, creating user flows, wireframes, high-fidelity UI designs and interactive Figma prototypes for web and mobile products.
- Created graphic design assets including social media posts, advertising creatives, logos, website icons, banners and other digital marketing assets.

Graphic Designer at Hae Digital

Mar 2024 to Jun 2024

Rajendra Place, New Delhi

- Created social media posts, advertising creatives and short-form reel content for digital marketing and brand communication.
- Also supported UI/UX work, including website layouts, visual assets and interface design based on project requirements.

Designer Associate at TeQ Mavens

Oct 2021 to Dec 2022

Panchkula, Haryana

- Created UI layouts, website graphics and visual assets while supporting digital design requirements across client projects.
- Produced graphic design and marketing assets for websites, campaigns and digital communication.

> **Jan 2023 to Mar 2024:** Took a career break due to personal circumstances and focused on professional development in UI/UX and Product Design.

Selected projects

Obik – Super App

Product Taxi booking, on-demand services and food delivery ecosystem

Process User flows, information architecture, wireframes, high-fidelity UI and interactive prototypes in Figma

Scope Customer app, driver/delivery app, vendor/service-provider app and admin- panel workflows

Outcome Designed a scalable multi-service product experience with consistent navigation, reusable UI patterns and clear task-based flows.

Bijmart – Quick Commerce Platform

Product Mobile grocery shopping and delivery experience

Process Structured browsing, categories, product discovery, search, cart, checkout and order-related flows in Figma

Scope Home, grocery categories, product listing/detail, offers, cart, checkout and supporting account/ order screens

Outcome Created a clean, consistent Quick commerce experience focused on product discovery, easy navigation and a straightforward purchase journey.
